## EXTERIOR

The lower deck swim platform is a spacious environment for spreading out with the water toys and sunbathing beside the sea. There is a stairway along the edge of the platform that swivels around and when deployed offers easy access in and out of the water. Two stairways lead up to the main deck aft, where there is a plush sofa along the stern and a raised table and movable chairs create a desirable space to dine alfresco and socialise in the shade. Side walkways lead to stairways up to the Portuguese deck, where there is a C-shaped sofa and closer to the bow an extensive collection of motorised water toys, to be safely launched and retrieved using a Davit crane.

A port side stairway connects to the upper deck, where a sofa lines the starboard side and is joined by side table and movable chairs to create a desirable outdoor area from drinks and conversation.

The sundeck provides a bar at the centre with sunbeds covering the aft section joined by sofas and armchairs for a laid-back setting in the sunshine. Even more sunbeds are forward, and in the centre is a raised Jacuzzi for sweeping views of the surroundings in the sunlight or under the stars.
